

# The People's Agenda

- 1) [HR3069/S1506 - National Expanded and Improved Medicare for All](#). This bill will easily pay for itself by reallocating the over \$5.4 Trillion PLUS being spent each year for the 69th rated remedial sick care for corporate profits system (over \$2 Trillion per year for corporate profits) toward financing a system for comprehensive, universal, accessible, Holistic Health Care as a Human Right for every person living in the USA and territories. While returning at least 3/4 of a Trillion dollars in savings to the People. [See how much YOUR family would save with M4A.](#)
- 2) [HR8005 - Social Security Expansion Act](#) - Preserve funding and expand benefits. Increase the cap, keep Grandma alive.
- 3) College as a Public Good without crippling debt. [Remove Student Debt](#) with reparations for less affluent folk who paid off their student loans. REFORM education system including K-12, more classrooms and teachers and broader "Green" curriculum and provide ALL education at little or no cost.
- 4) Empower the Working Class! A Living Wage or even better a [Universal Basic Income](#) (UBI) NOT tied to a "job". Begin by PASSING a PRO Act on Steroids to empower workers NOW! HR2474 - Protecting the Right to Organize.
- 5) End the [Forever Wars\\*](#) including the corrupting, toxic, [racist failed "Drug War"](#). SLASH the [war budgets](#): Federal, State and Local. [They are toxic drains on](#) society and the "economy". Sharing Societies don't need a police state.
- 6) [A REAL Green New Deal](#) - a massive program of MEANINGFUL infrastructure and systemic changes to prepare for our fossil-fueled Warmed Climate Change future. See Number 8!
- 7) [Tax the rich again](#) - higher marginal rates on the highest incomes, a [wealth tax](#) and tax on stock transfers among others. Change the tax code to favor Workers and [Worker-Coops](#) over [corporations](#), Wall Street, the polluters, fossil-fueled chemical Big Ag and Big Meat and ultra-rich wealth hoarders.
- 8) [Reform the Food System](#): Funding and logistic and infrastructure support for urban farms, food co-ops, farmers markets and CSA (Community Supported Agriculture). [Transition our agricultural system](#) to regional and local Regenerative Agriculture with relocalized distribution. End subsidies to fossil-fueled Big Ag. as part of the REAL Green New Deal. In addition, provide training and financing for restoring wetlands and wild-lands to sequester even MORE carbon from the atmosphere.
- 9) [A Department of Peace](#) engaged in domestic and global [Restorative Justice](#) to help repair the damage over 75 years of [Forever War](#) has caused. This would include leading the way toward ending domestic racist and class based oppression and social control perpetrated by police at the Federal, State and Local levels.

10) **HR3755 - Women's Health Protection Act of 2021**. Protect the very popular Right to Choose. Reverse SCOTUS' decision in Dodd and other egregious rulings and state laws against Choice.

11) **HR2584 - Judiciary Act** to Balance the Court from 9 to 13 seats (as was done in 1870s) and fill the new seats with Warren Court Style "Liberal" Justices to protect all of this legislation and future solutions to our real problems. Without this, "conservatives" will control SCOTUS until the 2050s. This agenda item will allow us to END CAMPAIGN BRIBERY and pass legislation to replace rigged UniParty (s)elections and make a fair and equal access to the electoral system the norm without a cabal of right-wing extremists overturning it.

12) **The Peace Dividend!** We want back at least some of the trillions taken from us as good, decent citizens under false pretenses, then used to fight unnecessary wars and buy military junk we never needed. Money which just ends up in the coffers of the defense industry, and ultimately in the bank accounts of wealthy investors who profit from the never-ending wars. *The Peace Dividend refund* currently totals \$25,029 for each and every living U.S. citizen.

13) **Free Cuba!** End the Illegal Blockade! End the Forever Wars to Free the People of ALL nations to pursue their own path toward a decent, sustainable future. Share the global resources and technologies instead of hoarding them to extort corporate profits. While we're at it, end the Forever Wars and FREE THE WORLD!
